

200-SERIES - WIDE DYNAMIC RANGE CAMERA

CM-216

DESCRIPTION

OpenEye's CM-216 wide dynamic range camera is perfectly suited for recording any outdoor facing location where high contrast sunlight and indoor lighting is a problem. With features such as DSP image processing for high contrast recording, a varifocal lens, and tamper resistant design, the 200-Series domes are a smart choice for indoor surveillance applications.

OpenEye 200-Series cameras are compatible with both 12vDC and 24vAC power making them easy to add to an existing installation and come with a quick mount adapter—everything needed for a quick and easy out-of-the-box installation.
