

N-SERIES - PROFESSIONAL GRADE NETWORK RECORDERS

OE5-NM

DESCRIPTION

OpenEye's N-Series is a professional level network video recording solution with virtually unlimited scalability. OpenEye's 4 Channel N-Series NM network recorder is a professional grade, feature rich, digital video recorder built on the Microsoft® Windows 7® Embedded platform. Available in a small form factor chassis, the NM recorder supports third-party integration for access control systems and central station monitoring.

OpenEye N-Series recording solutions can be scaled from one camera to thousands allowing you the flexibility to meet the unique demands of enterprise level IP installations. With features such as active directory integration, camera discovery protocols, and central management software, the N-Series makes it easy to deploy and administer an IP surveillance solution.

Whether installing an NVR at a single site or deploying a nationwide central monitoring solution, the N-Series is the right choice for your IP video management needs.

FEATURES

- » Dynamic IP camera discovery and configuration
- » H.264 / MPEG-4 / M-JPEG codec support
- » Support for active directory
- » Supports server-side and edge motion detection
- » Up to 6TB storage
- » ONVIF™ compliant
- » OWS Health Monitoring ready
- » Free mobile apps for smart phones
