

COMMAND STATION PC

CLOUD-ENABLED VIDEO SECURITY MANAGEMENT

CENTRALIZED USER MANAGEMENT

OWS provides secure storage of all user profile information, allowing role-based management for hundreds of users on the OWS web interface.

SINGLE SIGN-ON

Log in to OpenEye Web Services, Apex Server, Command Station, and OpenEye Mobile using the same email address and password.

CLIP SHARING

Export video clips to the cloud so they cannot be overwritten or lost. Share video clips via email with password protection.

MULTI-MONITOR SUPPORT

View live video and search recorded video from multiple recorders simultaneously in high resolution across up to 4 monitors.

HIGHLIGHTS

- Fully integrated with OpenEye Web Services (OWS)

- View and search video from multiple recorders simultaneously*
- Manage recorder permissions and configurations*
- High performance live video display
- Timeline and Thumbnail Search
- Multi-monitor support
- Save and share custom layouts via OWS
- PTZ camera control
- 360° image dewarping

GET MORE FROM YOUR SECURITY INVESTMENT WITH OPENEYE WEB SERVICES

Command Station is a powerful multi-site video management system with high-performance video decoding for multi-monitor remote recorder access. View and search video from multiple recorders simultaneously, using as many as 4 monitors.

Because Command Station is integrated with the OpenEye Web Services platform, you can use the roaming profiles to access your recorders and custom layouts from any Command Station workstation. OWS integration also allows you to upload clips for cloud-based storage and sharing.

*Command Station is only compatible with recorders using Apex Server software
